Notice of a Public Hearing was mailed to all property owners within 300 feet of the subject property on February 5, 2013. The Planning Division has not received any letters or phone calls in support or opposition of the rezoning request.

APPLICATION DESCRIPTION

The request is to change the zoning from P-I/sc (Planned Industrial/special contract) to C-4/sc (Commercial/special contract) to allow for a contractor yard, office, and warehouse. The contractor yard is not permitted in P-I (Planned Industrial) zone district. The special contract imposed conditions for sidewalks, temporary ponding and curb and gutters. These imposed conditions have either been complied with or will be addressed during the construction phase. Access is proposed from Osborne Drive.

PLANNING DIVISION RECOMMENDATION

The Planning Division recommends **approval** of rezoning the subject property P-I/sc (Planned Industrial/special contract) to C-4/sc (Commercial/special contract) with a condition that no residential uses be permitted. The recommendation is based on the existing commercial and industrial uses immediately adjacent to the subject property. The predominant land use in the area is light manufacturing which is compatible with the Plan El Paso land use designation G-7, Industrial and/or Railyards.

Plan El Paso- Future Land Use Map Designation

All applications for rezoning shall demonstrate compliance with the following criteria:

G-7 – Industrial: This sector applies to industrial parks, large free-standing industrial uses, refineries, non-military airfields, trucking terminals, and mines, all on large tracts in areas dominated by vehicles. This sector is essential to El Paso's economy; however, when an industrial use becomes obsolete, there can be potential for mixed-use redevelopment of the site. This sector also includes the existing rail yards which could be redeveloped as mixed-use communities if the rail yards were moved out of town.

The purpose of the C-4 (Commercial) district is to provide for locations for the most intensive commercial uses intended to serve the entire city. It is intended that the district regulations permit heavy commercial uses characterized by automotive and light warehousing. The regulations of the districts are intended to provide a transition from general business areas to industrial and manufacturing uses, and to accommodate major locations of commerce, service and employment activities. Within the central business district, more intensive commercial uses are allowed, the predominant of which are retail trade and service uses, providing less restrictive height and area regulations.

COMMENTS:

Planning Division - Transportation

A TIA is not required for the proposed change in zoning as the C-4 (Commercial) permits uses.

Note:

All proposed paths of travel (accessible sidewalks, wheelchair access curb ramps and driveways) located within public rights-of-way shall be constructed in compliance with the current ADA/TAS regulations and City Design Standards for construction.

City Development Department – Plan Review

No objections to rezoning.

City Development Department - Land Development

No Objection.

General Comments:

- Grading plan and permit shall be required.*
- Storm Water Pollution Prevention Plan and/or permit required.*
- Drainage plans must be approved by the City Development Department, Land Development Section.*

* This requirement will be applied at the time of development.

Fire Department

Recommend approval as presented. It does not adversely affect fire department at this time. ** Note, A more detailed reviewed will be done by fire plan review during the permitting process.
